No. 1009.

Vienna, Aug. 30. *O. S.*

THE Prince de Lobkowitz, who commands in Transilvania, has informed the Court that the Distempers which rage in that Province are not so dangerous as was believed, and that the Air is not at all infected. The Prince, who is posted with 8000 Men in the Defile of , to observe the Motions of the Turks on that , has desired a Reinforcement of some thousand .

elgrade, Aug. 24. *O. S.* Some Advices from y say, that the Bosniacks had made another In- on into Croatia, but after a Skirmish with our near Costanitza, wherein they lost about 300 , they were retired. Our Loss is said to have unted to about one third of that Number. We just received Advice that the Turks have sur- ed one of our Detachments at Pallasch, 4 or 5 ues from this City. The said Detachment con- of 1000 Horse and 300 Foot; of these, 500 opers, and 150 Foot, were gone out to forage, le the rest of the Cavalry were dismounted. We t yet certainly know what's become of the latter, whether the Foragers, whom, no doubt, the my endeavour'd to surprize, found means to pe; only we hear that Major General Ciceri was nded upon this Occasion. Notwithstanding what been said in Excuse for the precipitant Surrender Orsova, 'tis very probable that the true Reasons of e not yet known. Colonel Cornberg, the Com- dant, will be obliged to justify himself before the ncil of War, or before the Commissioners who be appointed to examine him. Captain Stein, commanded in the Fort of St. Elizabeth, only ender'd it in Obedience to the Orders of Colonel nberg; but he refus'd, we hear, to sign the Ca- lation. This is at least what they give out here; is to say, in the Neighbourhood of the Army, re People are seldom so well informed of the th of what passes, as in foreign Countries, to ich the Officers Letters carry such Intelligence, as y don't think fit to communicate to one another.

aris, Sept. 15. The Cardinal de Fleury would e stay'd some Days longer at Issy, if his Return not been quicken'd by a Letter he received from King; wherein his Majesty acquainted him, *at his Indisposition made him very uneasy, and that he uld have him come to Versailles as soon as he was able.* cordingly his Eminency arrived there Yesterday, en the King received him with great Joy and endship; and for these two Days past Fireworks e been let off both at Versailles and Issy, by way Rejoicing for the Cardinal's Recovery, who de- s To-morrow to entertain the Deputies of Geneva, other Ministers, at Dinner.

Journal of the Imperial Army. The 26th of August the Morning the Army march'd to Krotzka--A eutenant with 50 Men was left at Semendria, to force the Garison of 50 Men there. The Bridge Boats and the Ships of War were order'd up to grade. The 27th the Army rested: In the fol- ing Night, we marched towards Zweybrucken, ived there the 28th at Seven in the Morning, and amp'd near that Place, with our Left on a rising ound towards the Danube. The 29th we continue ncamp'd: The heavy Baggage which was order'd ectly to Belgrade, is recall'd hither.

Belgrade, Aug. 30. *N. S.* The Prince of Saxe ldburgshausen being perfectly recovered of his In- position, set out from hence on the 25th Instant on Return to the Army. Care is taking for the De- ce of Temeswaer, if it should be attacked. On 27th an Engineer with 26 Gunners were sent from nce thither, and a Supply of the like Number is pected here from Peterwaradin. A few Days ago e Commandant of this Place caused all the useless unserviceable Persons, and such as live idly and low no Employment, to be seized by the Guards, rried out of the Town, and conveyed over the idge on the Save. A Number of Men have been ployed for several Days in strengthening our For- cations. To Day two of our Ships of War re- turned hither; the other remains on the Danube near our Army till further Order.

Vienna, Sept. 6. *N. S* The Account printed here by Authority, and published to Day, of the Loss of Orsova, is as follows: We have received Advice, that notwithstanding the brave Resistance of the Garison of Orsova, and the introducing to them successfully but a few Days before, Succours of Men, Provisions, and Medicines, that Fortress was forced to yield to the Enemy, together with Fort St. Elizabeth. The extraordinary Fall of the Waters of the Danube, by which several Banks of Sand were left dry, occasioned chiefly this unexpected Event; the Place having thereby not only lost much of its natural Defence, but the Enemy by Means of those dry Sands, taking other Advantages which might have enabled the Place to hold out longer, had not the Accident of that so sudden and extraordinary Sinking of the River happen'd. Besides, the Distempers which every Year are frequent at this Season in those Parts, did this Year spread more and with greater Mortality than in preceeding Years, and prevailed so among the Garison, that notwithstanding the forementioned Succours, they were reduced to such extreme Weakness, that they were not able to make any further Resistance. Wherefore they capitulated with the Enemy, and by virtue of the Articles between them, were to march out with all their Arms. Fort St. Elizabeth having repell'd two vigorous Assaults, was by the Loss of Orsova rendered defenceless, and therefore surrendered on the same Terms.

Hague, Sept. 19. *N. S.* The Russian Ambassador here has received Advices to Day from his Court by an Express, of Velt Marshal Munich's Proceedings to the 17th past, N. S. the chief Particulars of which are, that having passed the 7th, 8th, and Part of the 9th of that Month upon the Banks of the Dniester, between the Rivers Molokisch and Bilocze, in cannonading the Turkish Army, which was intrenched on the opposite Side, he found the Passage of the Dniester in that Place, through the Steepness of its Banks, and the Works thrown up by the Enemy, in a Manner impracticable; and accordingly on the 9th in the Evening he withdrew higher up into the Country along the Bilocze: That the Enemy taking taking this Motion for a Flight, sent over the greatest Part of their Cavalry to join the Tartars, who accordingly during the 10th and 11th, as he was incamped upon that River, made several furious Attempts upon him, which however he had had the Happiness to sustain and repel with considerable Loss to the Turks; who being retired, he crossed the Bilocze on the 13th, and turning again to the Left, marched along the Banks of the Dniester up to a Place or River (from whence he dates his Relation on the 17th) called Kamitnicza, a little below Soroka. The Express, with the foregoing News, left Petersburg the 3d Instant.

LONDON.

Tuesday last at 3 o'Clock in the Morning, died at Leyden, in the 70th Year of his Age, M. Herman Boerhave, M. A. Doctor of Philosophy and Physick, Professor of Physick, and Practitioner in the University of Leyden, President of the College of Surgery in that City, and Member of the Royal Academy of Sciences at Paris, and of the Royal Society at London. He was born the 31st of December 1668, at Voorhout, a Village about a League from that City. He was appointed Professor the 20th of March 1709. by the Wardens of Leyden University. His Death is one of the most considerable Losses that the Republick of Letters has sustained a long time. We are inform'd that this great Man thought the English Physicians made too much Use of that Peruvian Medicine the Bark; tho' both Theory and Practice prove the Bark to be not only an innocent, but an excellent Medicine in this Climate of our's; which, as 'tis very different from the Dutch, so no doubt the Constitutions and Diseases, tho' of the same Class and Name of the Natives, are different too, and consequently not to be cured all in the same manner.

Two Persons of great Note are lately dead in Portugal, viz.

1. Don Duarte Sodre-Pereira, a Gentleman of the King's Bed-chamber, &c. Member of the Council of State, who return'd with the last Fleet from Brasil. He was 72 Years of Age, and had served his Portuguese Majesty in a very distinguished manner. After having passed through all the military Offices, he was 9 Years Governor and Captain General of the Island of Madeira; after which he serv'd 5 Years in the same Station at Mazagam; and from thence he went to Brasil, where he served 10 Years as Governor and Captain General of Fernambuc.

2. Don John Taveira de Lima, Knight of the Order of Christ, who died at Moncaon, in the Province of Entre Minho and Douro, aged 108 Years, 3 Months and 10 Days. He had been from a Lad in the Service of the Crown. From a common Soldier he passed successively thro' the Degrees of Ensign, Adjutant, Captain of Foot, Major, Colonel, Serjeant Major, and Lieutenant General. He was at last preferred to the Government of the City of Moncaon, but was discharged of it by reason of his being superannuated; and then his Portuguese Majesty, in Consideration of his long and faithful Services, gratify'd him with the Patent and Pay of Brigadier of his Armies.

They write from Stockholm, that the King of Sweden, for encouraging his Subjects to work in the Mines, which contribute chiefly to the Wealth of that Kingdom, next to the Oeconomy and Sobriety of the Natives, has consented to grant an Exemption from all the ordinary Taxes, to such as will engage to work in them.

Some few Days ago a detestable Action was perpetrated at the House of Dr Peters in Whitehall in every Respect resembling that committed by the Black, now hanging in Chains, but in one Circumstance; the latter broke into the House, the other was inadvertently let in by the Servant Maid, who is the Sufferer. A Man, who was Brother to the Wife of one of her fellow Servants was, upon that account, kindly Entertained when his Brother-in-Law was in Town, every time he came to the Doctor's House; but the Family being out of Town, the Villain made use of that Opportunity to go and see the Maid who was left in Care of it: She suspecting no ill, opened the Door; as soon as he entered, he shut the Door, struck her with a Bludgeon, which at the second Stroke knock'd her down, when repeating his Blow, he laid her Head open to the Scull, from the Forehead to the hinder Part: This stunn'd her; but the Villain taring a Gold Bob, Flesh and all, from her Ear, brought her so to herself, that she screamed out, which alarming the Centinel, he endeavoured to force open the Door with his Piece; this frightening the Fellow, he drew out a Knife, and swore he would cut her Throat, if she made any Noise; but at the same time promised, that if she would let him go quietly away, he would do her no farther Harm, and threw the Ear Ring upon the Ground; in the great Consternation she was in she readily agreed to it: The Centinel hearing no more Noise, gave himself no further trouble about th

the Matter; and being ſoon after relieved, gave the Rogue an Opportunity to make his Eſcape; but we hear that he is ſince apprehended.

A Boy about 16 Years of Age, riding ſu ſiouſly over the flag Stones by the Piazza at the Palace of Kenſington, his Horſe fell, and not only fractured the Boy's Skull, but broke his Thigh in a moſt miſerable manner; he was directly convey'd to the Infirmary at Hide Park Corner, where his Thigh was cut off on Thurſday laſt; but 'tis thought he can't ſurvive it.

On Saturday laſt a Fire broke out at Mr. Eller's, a Sugar Baker, in Durham-Yard in the Strand, but by timely Aſſiſtance it was extinguiſhed without doing much Damage, except to the Houſe where it began.

On Saturday laſt John Matchell and Richard Wilkinſon, were committed to Newgate by John Pouſſon, Eſq; for ſtealing two Mares the 14th Inſt. out of the Grounds of John Lucas of Dunchurch, in the County of Warwick, Grazier; they were purſued and taken at the Pewter Platter in St. John's-ſtreet, Smithfield. The two Mares were valued at 50 l.

The above Matchell was tried for Horſe-ſtealing, and Acquitted, at this laſt Seſſions at the Old Baily.

On Saturday laſt one Henry Doulton, a noted and eminent Hog-Driver, walk'd from the George in Wood's Cloſe to Barnet and back again, in leſs than two Hours, for a Wager of 50 l.

Laſt Saturday about three o'Clock in the Afternoon, a Gentlewoman that lodged at a Peruke-maker's in Cock-Court on Ludgate-Hill, being diſorder'd in her Senſes, flung her'elf out of a Window two Pair of Stairs, and was killed on the Spot.

ANTI-SYPHILICON.

THE only ſhort and moſt infallible Cure in the Univerſe for the VENEREAL DISEASE, from the ſlighteſt Infection to the moſt extreme and deplorable Degree of it, even when the Blood and Juices are thoroughly contaminated with its malignant VIRUS, and the very Bones are affected with it.

Freſh Infections, call'd CLAPS, with all their attendant Symptoms, tho' ever ſo ſevere, are entirely carried off by it in a few Days, and ſo as effectually to prevent the Blood and Juices from being tainted with any remaining Relicks on one Hand, or a ſeminal Gleet or Weakneſs to happen on the other.

And the moſt inveterate Degree of the French Illneſs, attended with Nocturnal Pains, univerſal Breakings out, and all the other moſt exaſperated Symptoms, are ſoon overcome by it, and effectually and much more ſafely cured than by Salivation, Inunction, or any other Method whatever, and in ſo eaſy and pleaſant a Manner, without impairing Strength, or occaſioning any Inconvenience, as loudly to beſpeak it the only appoſite Remedy or true Venereal Antidote in the World; and this ſome Thouſands have to their great Joy experienc'd.

It is pleaſant to take, occaſions no Sickneſs or Diſorder, nor requires Confinement; but may be taken, and the Cure be accompliſh'd, without the Knowledge of the neareſt Friend.

Thoſe who ſuſpect they have received an Injury, may, by only a Doſe or two of it, be perfectly freed from all Apprehenſions; for it ſuffers no lurking Venom to lie hid in the Body, but wholly extirpates it Root and Branch, in a gentle, eaſy, and moſt effectual Manner.

All ſuch likewiſe as doubt they have ſome remaining Relicks of former Injuries, may by a few Doſes of it intirely free themſelves from all Suſpicion of that Kind; for it admits of no Foulneſs, Corruption, or Putrefaction whatever, to remain in the Fluids, or to adhere to the Solids; and on that Account, in all ſcorbutick, ſcrophulous, and even leprous Eruptions or Foulneſſes of the Skin, Glandulous Swellings and Impurities of the Juices, it does more by one Doſe, than any other Medidine yet known can by ten.

The Price of this moſt Noble ANTI-SYPHILICON is but Six Shillings a Pot, which, conſidering its extraordinary Efficacy, one Pot only being ſufficient in moſt Caſes to accompliſh the Cure, is not a tenth Part of its Value; and is appointed by the Author to be had only at Mr. RADFORD's Toyſhop, at the Roſe and Crown againſt St. Clement's Church-Yard in the Strand, ready ſealed up with a Book of Inſtructions, by the Peruſal of which, all Perſons who were ever affected with any Degree of the Venereal Diſeaſe, may perfectly underſtand their own Condition, and certainly know when, and when not, the Venereal Poiſon is intirely ooted out of their Bodies

Note, Ask only for a Six Shilling Pot for the Scurvy.

Advertiſement concerning this Book.

This Maſterpiece of religious Policy was publiſhed [illegible] Years ſince, in Latin, French, and Dutch: Mr. John Schipper a Bookſeller at Amſterdam, bought one of them at Antwerp among other Books, and afterwards reprinted it. The Jeſuits being informed that he had purchaſed this Book, demanded it back from him; but he had then ſent it to Holland. One of the Society, who lived at Amſterdam, hearing it had been after, to a Catholick Bookſeller, by Name Van Eyke, with whom Schipper was printing a Book which concerned the Jeſuits, replied, that if it was only *The Rules of the Society*, he need not be under any Concern; but deſired he would inform himſelf what it was. Being told by the Bookſeller, that it was *The Secret Inſtructions of the Society*, the good Father, [illegible] ging up his Shoulders, and knitting his Brow, ſaid, that he ſaw no other Remedy but denying that this Piece came from the Society. The Reverend Fathers however thought it adviſeable to purchaſe the whole Edition, which they did, ſome few Copies excepted; from one of which it was afterwards reprinted, with this Account prefixed; which is there ſaid to be taken from two Roman Catholicks of Credit.
